Amendment of the Schedule of Application Fees Set Forth in Sections 1.1102 through 1.1109 of the Commission's Rules	)	MD Docket No. 20-270

ORDER

Adopted: December 31, 2024 **Released: January 7, 2025**

By the Commission: Commissioner Carr concurring and issuing a statement.

I. INTRODUCTION

1. By this Order, the Commission adopts rule changes to our Schedule of Application Fees set forth in section 1.1102 through section 1.1109 of our rules, to adjust our fees for processing applications and other filings.[1] Section 8(b)(1) of the Communications Act of 1934, as amended (Communications Act or Act), requires the Commission, in every even-numbered year, to adjust the schedule of fees for processing applications to reflect increases or decreases in the Consumer Price Index (CPI), rounded to the nearest $5 increment.[2] In this Order, we make the 2024 CPI adjustment.

2. In December 2020, pursuant to authority established by the RAY BAUM'S Act,[3] the Commission adopted a new application fee schedule that significantly updated the Commission's FY 2018 fee schedule (last fee schedule before implementation of the RAY BAUM'S Act).[4] Accordingly, in 2022, pursuant to section 8(b) of the Act, the Commission adjusted the fees by applying an inflation factor to the fees adopted in 2020 to reflect a change in the CPI of 11.59%, an increase of 30.958 index points calculated from 267.054 (April 2021) to 298.012 (October 2022).[5] Applying the CPI Index

[3] The Repack Airwaves Yielding Better Access for Users of Modern Services Act of 2018, or the RAY BAUM'S Act of 2018, amended sections 8 and 9 and added section 9A to the Communications Act of 1934, as amended, and provided that such provisions would become effective on October 1, 2018. *See* Consolidated Appropriations Act, 2018, Pub. L. No. 115-141, 132 Stat. 1084, Division P – RAY BAUM'S Act of 2018, Title I, § 103 (2018).

[4] *Amendment of the Schedule of Application Fees Set Forth in Sections 1.1102 through 1.1109 of the Commission's Rules*, MD Docket No. 20-270, Report and Order, 35 FCC Rcd 15089 (2020) (*2020 Application Fee Report and Order*), *corrected by Erratum*, 36 FCC Rcd 15883 (2021). The *2020 Application Fee Report and Order* was published in the Federal Register on March 19, 2021. *Schedule of Application Fees of the Commission's Rules*, 86 Fed. Reg. 15026 (Mar. 19, 2021).

[5] *Amendment of the Schedule of Application Fees Set Forth in Sections 1.1102 through 1.1109 of the Commission's Rules*, MD Docket No. 20-270, Order, 37 FCC Rcd 14994 (2022) (*2022 Application Fee Order*). The *2022 Application Fee Order* was published in the Federal Register on January 31, 2023 and became effective on March 2, 2023. *Schedule of Application Fees of the Commission's Rules,* 88 FR 6169 (Jan. 31, 2023). The Act does not specify whether the section 8(b) CPI adjustments are required to be made in every calendar or fiscal year. We, therefore, have interpreted this provision to require us to make such adjustments by the end of each calendar year (continued….)

consistent with the preceding calculation and adjusted within a specific timeframe, the fee schedule adopted in this 2024 Order reflects a change in the CPI of 17.41%, an increase of 46.494 index points calculated from 267.054 (first effective date of 2020 fees in April 2021) to 313.548 (April 2024).[6] The adjustments comply with the requirements set forth in section 8(b) of the Act.[7] Pursuant to section 8(b)(2) of the Act, however, the Commission may not adjust an application fee if: (1) in the case of a fee the current amount of which is less than $200, the adjustment would result in a change in the current amount of less than $10 or (2) in the case of a fee the current amount of which is $200 or more, the adjustment would result in a change in the current amount of less than 5 percent.[8]

3. We recognize that, at the time of this Order, there are open rulemakings that propose new application fees.[9] This Order, however, merely implements the 2024 CPI adjustment and does not address fees proposed in any other proceedings.

4. *Procedural Matters*. The methodology and timing of adjustments to application fees are prescribed by statute at 47 U.S.C. § 158(b). Because our action implementing the statute under section 8(b) leaves us no discretion, prior notice and comment is unnecessary pursuant to 5 U.S.C. § 553(b)(3)(B). Additionally, no final regulatory flexibility analysis is required pursuant to 5 U.S.C. § 604(a) of the Regulatory Flexibility Act, 5 U.S.C. § 601 *et seq*. Further, this document does not contain new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Pub. L. No. 107-198, *see* 44 U.S.C. 3506(c)(4).

5. *Congressional Review Act.* The Commission has determined, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget, concurs, that this rule is non-major under the Congressional Review Act, 5 U.S.C. § 804(2). The Commission will send a copy

consistent with the timing of the adoption of the *2020 Application Fee Report and Order*. *2022 Application Fee Report and Order,* 37 FCC Rcd at 14995 n. 9.

[6] Application fees are calculated based upon the process set forth in 47 U.S.C. § 158(b)(1). Section 8(b)(1) prescribes that application fees are to be increased or decreased by the percentage change in the CPI during the period beginning on the date when the application fee was established or the date when the application fee was last amended and ending on the date of the review, *i.e.*, December 2022. The actual calculation of application fees is based on the growth of the CPI from April 2021, the effective date of the *2020 Application Fee Report and Order*, through April 2024, the date of when the CPI data was calculated for this 2024 Order, an April to April time span. *See* Bureau of Labor Statistics CPI-U Index at https://www.bls.gov/cpi/tables/supplemental-files/historical-cpi-u-202404.pdf, page 2.

[7] 47 U.S.C. § 158(b). Because section 8(b)(2) limits the application fees the Commission can adjust in every even-numbered year, not all application fees have been adjusted as a result of an increase in the CPI. *See supra* para. 1 & n.5. For the purpose of determining whether an application fee may be adjusted, we compared proposed fee increase for 2024 to the fees in the *2022 Application Fee Order*. If the fee in the *2022 Application Fee Order* is less than $200, and the proposed fee adjustment for 2024 is less than $10, then the fee amount would not be adjusted in this Order. If the fee adopted in the *2022 Application Fee Order* is greater than $200, and the proposed fee adjustment for 2024 is less than 5 percent, then the fee would not be adjusted and would remain at the fee in the *2022 Application Fee Order*.

[8] 47 U.S.C. § 158(b)(2). The "current amount" is defined as "the amount of the fee on the date when the fee was established, the date when the fee was last adjusted under paragraph (1), or the date when the fee was last amended under subsection (c), whichever is latest." 47 U.S.C. § 158(b)(3). Thus, for the purpose of determining whether fees may be adjusted, we compare the fees calculated pursuant to the methodology described in this 2024 Order to the fees adopted in the *2022 Application Fee Order,* 37 FCC Rcd 14994.

of this Order to Congress and the Government Accountability Office pursuant to 5 U.S.C. § 801(a)(1)(A) and section 9a(b) of the Act.[10] Notification of the fee adjustments made in this Order will also be published in the Federal Register.

6. *Electronic Payments*. As a reminder, filers are required to submit payments electronically in accordance with the procedures set forth on the Commission's web site, https://www.fcc.gov/licensing-databases/fees/application-processing-fees. Payments can be made through the Commission Registration System (CORES), accessible at https://apps.fcc.gov/cores/userLogin.do. To file applications, tariffs, and petitions, parties utilize, as applicable, the Commission's Electronic Tariff Filing System (ETFS) for tariffs, which can be found at https://apps.fcc.gov/etfs/etfsHome.action, or the Electronic Comment Filing System (ECFS), which can be found at https://www.fcc.gov/ecfs. Petitions filed in hard copy format should be submitted according to the procedures set forth on the web page of the Commission's Office of the Secretary, accessible at https://www.fcc.gov/secretary.

II. ORDERING CLAUSES.

7. Accordingly, IT IS ORDERED, that, pursuant to §§ 1, 4(i), 4(j), and 8 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 154(i), 154(j), and 158, the rule changes specified herein ARE ADOPTED and the Schedule of Application Fees, 47 CFR § 1.1102 *et seq*., IS AMENDED as set forth in the attached Appendix.

8. IT IS FURTHER ORDERED that the rule changes and adjustments to the Schedule of Application Fees made herein shall become effective 30 days after publication in the Federal Register.

9. IT IS FURTHER ORDERED that the Office of the Managing Director, Performance Program Management, SHALL SEND a copy of this Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, 5 U.S.C. § 801(a)(1)(A), and section 9a(b) of the Act.

APPENDIX

Final Rules

For the reasons discussed in the document above, the Federal Communications Commission amends part 1 of Title 47 of the Code of Federal Regulations as follows:

PART 1 – PRACTICE AND PROCEDURE

1. The authority citation for part 1 continues to read as follows:

Authority: 47 U.S.C. chs. 2, 5, 9, 13; 28 U.S.C. 2461 note; 47 U.S.C. 1754, unless otherwise noted.

2. Revise § 1.1102 to read as follows:

§ 1.1102 Schedule of charges for applications and other filings in the wireless telecommunications services.

Some of the wireless application fees below have a regulatory fee component that must be paid at the time of a new or a renewal of a wireless application. Please refer to the Wireless Filing Guide for payment type codes at https://www.fcc.gov/wireless-fees.

(a) In tables to this section, the amounts appearing in the column labeled "Fee Amount" are for application fees only. Certain services, as indicated in the table below, also have associated regulatory fees that must be paid at the same time the application fee is paid. For more information on the associated regulatory fees, please refer to the most recent Wireless Telecommunications Bureau Fee Filing Guide for the corresponding regulatory fee amount located at https://www.fcc.gov/wireless-fees For additional guidance, please refer to § 1.1152. Application fee payments are required to be made electronically using the Commission's Registration System (CORES) once an application has been submitted in the Universal Licensing System (ULS). CORES is accessible at: https://apps.fcc.gov/cores/userLogin.do

(b) Site-based licensed services are services for which an applicant's initial application for authorization generally provides the exact technical parameters of its planned operations (such as transmitter location, area of operation, desired frequency(s)/band(s), power levels). Site-based licensed services include land mobile systems (one or more base stations communicating with mobile devices, or mobile-only systems), point-to-point systems (two stations using a spectrum band to form a data communications path), point to-multipoint systems (one or more base stations that communicate with fixed remote units), as well as radiolocation and radionavigation systems. Examples of these licenses include, but are not limited to, the Industrial/Business Pool, Trunked licenses and Microwave Industrial/Business Pool licenses.

Table 1 to Paragraph (b)

Site-based license applications	New fee
New license, major modification	$105
Extension Requests	$50
Special temporary authority	$150
Assignment/transfer of control, initial call sign	$50
Assignment/transfer of control, each subsequent call sign, fee capped at 10 total call signs per application	$35
Site-based license applications New fee Rule waivers associated with applications for assignment/transfer of control, per transaction, assessed on the lead application	$425
Rule waivers associated with applications for assignment/transfer of control, per transaction,	$425

Renewal	$35
Spectrum leasing	$35
Maritime, Aviation, Microwave, Land Mobile, and Rural Radio	Please refer to the Wireless Telecommunications Bureau Fee Filing Guide for Information on the payment of an associated regulatory fee.

(c) Personal licenses authorize shared use of certain spectrum bands or provide a required permit for operation of certain radio equipment. In either case, personal licenses focus only on eligibility and do not require technical review. Examples of these licenses include, but are not limited to, Amateur Radio Service licenses (used for recreational, noncommercial radio services), Ship licenses (used to operate all manner of ships), Aircraft licenses (used to operate all manner of aircraft), Commercial Radio Operator licenses (permits for ship and aircraft station operators, where required), General Mobile Radio Service (GMRS) licenses (used for short-distance, two-way voice communications using hand-held radios, as well as for short data messaging applications), Vanity, and Restricted Operator licenses.

Rule waiver	$35
Renewal	$35
Vanity Call Sign (Amateur Radio Service)	$35
Marine (Ship), Aviation (Aircraft), and GMRS	Please refer to the Wireless Telecommunications Bureau Fee Filing Guide for Information on the payment of an associated regulatory fee.

(d) Geographic-based licenses authorize an applicant to construct anywhere within a particular geographic area's boundary (subject to certain technical requirements, including interference protection) and generally do not require applicants to submit additional applications for prior Commission approval of specific transmitter locations. Examples of these licenses include, but are not limited to, the 220-222 MHz Service licenses, Upper Microwave Flexible Use Service licenses, 600 MHz Band Service licenses, and 700 MHz Lower Band Service licenses.
